## 1.0 GENERAL INFORMATION

"Yelping it up" is a food review website that permits users the ability to search, locate, and gather information on nearby Atlanta restaurants. Users will also be granted with the ability to leave reviews, via accounts created through the website.

### 1.1 Organization of the Manual

The user's manual consists of three sections: General Information, System Summary, and Using "Yelping it up".

General Information section explains the general terms of the website and the purpose for which it is intended for.

System Summary section provides a general overview of the website. The summary outlines the uses of the website's software requirements, application's configuration, and user access levels

Using "Yelping it up" section explains the basic knowledge needed to navigate "Yelping it up".

## **2.0 SYSTEM SUMMARY**

Website Summary section provides a general overview of the website. The summary outlines the uses of the website's software requirements, website's configuration, and user access levels.

### **2.1 System Configuration**

The website requires an internet connection to save data to the database. Data saved in the database can be seen using any major Internet browser.

### **2.2 User Access Levels**

Everyone has access to the website, but only Account holders can leave reviews. Website Administrators are allotted the ability to add restaurants to the websites database.

## **3.0 Using "Yelping it up"**

Using "Yelping it up" section explains the basic knowledge needed to navigate "Yelping it up".

### **3.1 Yelping it up -- Accounts**
